\*\*Less than 35 mg per serving on average. Those following a low-oxalate diet should evaluate their individual needs.

## JUST THE FACTS:

Compare supplement facts to the leading brands

- **Greens proprietary blend** — Featuring nutrient-dense organic superfoods that provide phytonutrients, vitamins, and minerals. Together, these support cellular energy production, metabolic health, healthy body composition, mental clarity and brain health, and healthy immune and inflammatory responses.\*
- **Vegetable proprietary blend** — Low-oxalate\*\* and organic; provides nitrate, which may promote nitric oxide formation and support healthy blood circulation; promotes nutrient and antioxidant status, and healthy immune and inflammatory responses.\*
- **Fruit proprietary blend** — Promotes antioxidant status, digestive health, and healthy immune and inflammatory responses.\*
- **OxyPhyte® grape blend** — Contains a unique grape seed and skin extract with a high ORAC score to help support antioxidant status, healthy cellular metabolism, aging, and recovery.\* ORAC (oxygen radical absorbance capacity) is a measure of antioxidant activity, or a food's ability to neutralize harmful molecules in the body.
- **Digestive enzyme blend** — Helps break down plant fibers, carbohydrates, proteins, and fats, promoting nutrient absorption, sustained energy, and digestive health.\*
- **Organic burdock root** — Prebiotic fiber, which may further support digestive health by promoting the growth of beneficial bacteria in the digestive tract and supporting the intestinal barrier function.\*
